Global Technology Partnership Opportunity

**Global Transition
Resources Inc.** - Advancing
Critical Minerals for the
Energy Transition

Global Transition Resources Inc., a US-based affiliate of the Vedanta group, with active **copper-cobalt and gold assets ranking in global top 5 situated in Africa**, and a major producer of zinc, silver, aluminium, iron ore and hydrocarbons, invites world-class **technology partners** to join us in transforming the future of sustainable mining.

We are prepared to invest up to **USD 1 billion in breakthrough technologies** and innovative solutions that drive operational excellence, environmental leadership, and long-term value creation. **We are excited to work together to establish a technology test-bed.**

We welcome partners with a proven track record to collaborate on:

- **Advanced exploration technologies**
- **Cutting-edge mine development and engineering** solutions
- **AI-driven recovery optimization** and process innovation
- **Digital twins & remote-control systems** for best-in-class operations
- Unwavering commitment to **world-class ESG standards**

This is a rare opportunity to shape the next frontier of critical mineral development—at scale, and with purpose.

If your technology is ready to power the future of mining - connect with us.
