

# BOARD MEMBERS/DIRECTORS FOR ADVISORY BOARD

At Vedanta, we are driven by a vision to be a global leader in sustainable growth, innovation, and value creation. As a company with a turnover of USD 20 Bn and a market capitalization of USD 25 Bn, we pride ourselves on our commitment to excellence, long-term shareholder value, and a strong focus on operational efficiency, sustainability, and stakeholder partnerships.

We operate at the forefront of critical minerals, hydrocarbons, natural resources, and are rapidly expanding in technology products and services, supporting industries that power the world.

As part of our journey ahead, we are inviting accomplished leaders to join our Board of Directors—particularly those who have led functions such as Human Resources, Finance, Commercial, Legal, or other strategic domains in large organizations.

## What we are looking for

Vedanta is looking for seasoned Board Members and Directors to support our diverse portfolio of businesses. We are inviting distinguished professionals/retired leaders with experience on Advisory Boards across industries from Australia, the US, the UK, and Europe with deep expertise in Finance, HR, Legal, Technology, ESG, Social Impact, and Government Affairs. Our focus is on leaders who possess the strategic foresight to navigate the dynamics of large, publicly listed organizations, develop impactful strategies, and create sustainable value.

We particularly welcome those who have operated at the highest levels, and who can advise directly—as well as through their networks—to help our functional heads vet ideas, introduce fresh perspectives, and steer strategic direction.

This is an attractive wealth creation opportunity for those who are ready to make a significant impact.

This would be a part-time commitment, with digital modes of engagement (e.g. Zoom/Teams) ensuring flexibility and global collaboration—making it ideal for those seeking meaningful board participation while primarily working from home.

**Be part of a visionary team that is defining the future of global business**
