

## Vedanta Delivers Record FY26 Production Across Aluminium, Alumina and Zinc

**Mumbai/New Delhi, 3<sup>rd</sup> April 2026:** Vedanta Limited, (NSE: VEDL), India's leading metals, oil & gas, critical minerals, power, and technology conglomerate, announced its production results for Q4 and full year FY26, delivering a strong operational performance with multiple record highs across its core businesses. The year was marked by highest-ever production levels in alumina, aluminium, zinc, and ferro chrome, reflecting sustained focus on capacity ramp-up, operational efficiencies, and consistent execution across its diversified portfolio.

Alumina production hit a record high of 2,916 kt, marking a robust 48% year-on-year growth, with the refinery now operating at an annual capacity of 4 million tonnes. Aluminium production also achieved a record high of 2,456 kt, up 1% YoY, reinforcing Vedanta's position as one of the largest aluminium producers globally. Together, these achievements highlight Vedanta's scale and execution in one of its most strategic verticals.

Zinc India delivered its highest-ever mined metal production at 1,114 kt for the full year, up 2%, supported by higher ore output and improved grades. Refined zinc production also reached a record 851 kt, up 3% year-on-year, driven by capacity enhancements, better efficiency and improved plant availability. Zinc International delivered strong annual performance, with production rising 27% year-on-year to 225 kt, driven by higher throughput and improved grades.

Iron ore operations recorded their highest-ever pig iron production at 895 kt, up 10% YoY, supported by production enhancement initiatives. Ferro chrome production at FACOR also achieved a record annual output of 101 kt, up 21% year-on-year, driven by higher mining output and improved availability of high-grade ore. Copper cathode production reached a record 170 kt for the full year, up 15% year-on-year, reflecting improved operational efficiency and diversified sourcing.

The power business also delivered robust performance, with annual power sales increasing 14% YoY to 18,571 million units. Athena (600 MW) achieved a plant load factor of 88% in Q4, reflecting strong operational performance post commissioning.

Vedanta's FY26 strong operational performance was supported by the company's emphasis on safe operations, investment in people development and inclusivity, and continued progress on sustainability initiatives. The performance underscores Vedanta's strong execution capabilities, with record production across key businesses and consistent operational improvements across the portfolio. The Company remains focused on building on this momentum, driving efficiency, scale, and long-term value creation.
