ECONOMIC REPORT DISCOUNTS MARKET OPTIMISM

Supply shock may hurt growth: FinMin

FE BUREAU New Delhi, April 29

A SUPPLY SHOCK accompanied by demand compression amid high prices and slowing activity may weigh on India's FY27 economic growth, Finance Ministry economists said on Wednesday...

MARCO OUTLOOK

Outgoing fiscal year delivered real GDP growth of 7.6% Forecast for the current financial year is at 7-7.4%

- The priority must be energy security, stronger public transport, reduced import vulnerabilities India must promote AI-resilient trade skills to boost jobs, exports, report says

In the presence of pervasive uncertainty and distrust, it does not make sense to assume the best, as stock market investors seem to be doing, according to the ministry's monthly economic report for April.

The ministry's economists said inflation may become cost-push as businesses/producers pass on their increased input costs to protect their profit margins.

for domestic inflation, as that could raise import prices, it said. India's crude oil basket averaged \$113 per barrel in March, and it is just under \$115 per barrel as on April 24.

Policy circles say crises should not be wasted, and India's current challenge is no different. The priority must be energy security, stronger public transport, and reduced import vulnerabilities.

The outgoing fiscal year delivered real GDP growth of 7.6%, the strongest in recent years, encouraging a 7-7.4% forecast for the current financial year, only to be clouded by an altered macro-outlook in the wake of the West Asia war, it said.

To temper cost pressures in critical sectors like agriculture, the Centre has taken various measures such as increased allocation of natural gas to fertilizer production, waiver of customs duty and around a 12% uneven in-nutrient-based subsidy for the upcoming kharif season.

Tax certainty is critical to attract investment, as trade and current account deficits may widen further in FY27.

PM inaugurates Ganga Expressway

FE BUREAU New Delhi, April 29

PRIME MINISTER NARENDRA MODI on Wednesday inaugurated the 594-km-long access-controlled green-field Ganga Expressway in Hardoi, Uttar Pradesh, built at a cost of approximately ₹36,230 crore.

The expressway, developed by the Uttar Pradesh Expressways Industrial Development Authority (UPIIDA), connects 12 districts - Meerut, Haridwar, Bulandshahr, Amroha, Sambhal, Badaun, Shahjahanpur, Hardoi, Unnao, Rae Bareilly, Pratapgarh and Prayagraj and is expected to reduce travel time while ensuring faster, safer and more convenient movement.

Work on the expressway was inaugurated by the Prime Minister in December 2021, and the project

has now been completed in five years. The expressway begins in Meerut district and extends to Prayagraj.

The expressway will also be connected to other major corridors, including the Purvanchal, Agra-Lucknow, Bundelkhand and Gorakhpur Link expressways, creating a vast interconnected network.

"Not only has the construction of the Ganga Expressway been completed, but work has also started on its expansion plan. Soon, the Ganga Expressway will extend beyond Meerut to reach Haridwar. The Parukhadi Link Expressway will be built, connecting it with other expressways," Modi said.

He stated, "The Ganga Expressway will change the lives of millions of people in these areas."

Aadhaar-based portal to track inactive PF accounts soon

FE BUREAU New Delhi, April 29

THE EMPLOYEES' PROVIDENT FUND Organisation (EPFO) is all set to launch E-PRAAPI, a dedicated digital platform to help members identify, track, link and activate their old or inoperative EPF accounts, Labour and Employment Minister Mansukh Mandaviya said on Wednesday.

E-PRAAPI, an EPF Aadhaar-Based Access Portal for Tracking Inoperative Accounts will provide a streamlined Aadhaar-based authentication mechanism. This will enable members to securely access old EPF accounts that are not yet linked to their Universal Account Number (UAN), update their

member profiles, and complete the UAN linking and activation process seamlessly, the Labour ministry said.

It stated that the new platform will significantly reduce manual intervention, minimise documentation requirements, and bring greater transparency and efficiency to the management of provident fund accounts.

In the initial phase, E-PRAAPI will function on a member ID-based system. This approach ensures a secure and efficient rollout while immediately benefiting a large segment of members who still have their old member IDs. The Ministry added that the portal's scope will be expanded later to cover members who may not recall or have access to their previous member IDs.
