This MoU with Sulfozyme Agro further strengthens Hindustan Zinc's focus on responsible manufacturing and downstream industrial expansion, the company noted.

Hindustan Zinc Limited on Wednesday said it signed a Memorandum of Understanding (MoU) with Sulfozyme Agro India Pvt. Ltd. under its flagship Zinc Industrial Park initiative set up at Khankhala, Bhilwara district in Rajasthan.

Under the collaboration, Sulfozyme Agro will establish its proposed operations at the Zinc Industrial Park, focused on processing zinc-based materials into value-added products for industrial and downstream applications.

The partnership marks another strategic step toward strengthening India's downstream zinc sector through sustainable metal recovery,

resource efficiency, and innovation-led industrial development, it said.

“At Hindustan Zinc, we are focused on building a future-ready industrial platform driven by innovation, sustainability, and resource efficiency. Our partnership with Sulfozyme Agro reflects our commitment to strengthening the circular economy while enabling downstream value creation,” said Arun Misra, CEO, Hindustan Zinc.

The Zinc Park proposal was first announced by the Chief Minister of Rajasthan, Bhajan Lal Sharma, alongside Vedanta Group Chairman Anil Agarwal at the Rising Rajasthan Global Investment Summit in December 2024.

This MoU with Sulfozyme Agro further strengthens Hindustan Zinc’s focus on responsible manufacturing and downstream industrial expansion, the company noted.

The Zinc Industrial Park is rapidly emerging as a catalyst for industrial growth in Rajasthan by enabling downstream industries, promoting entrepreneurship, and generating specialised employment opportunities, it added.
